Family Hubs | Oldham Case Study

Our project will fund a Family Support Enabler to coordinate;

1. addressing gaps in provision for families by
 - a) renting room spaces in churches to start council run family hub services in new locations across the local authority
 - b) collaborating on a new project in churches in Saddleworth to deliver services for families
2. church leaders visiting their local council run Family centre for focussed discussions to explore collaboration
3. sharing updates about Oldham council Family hubs via a newsletter to church leaders
4. recruiting volunteers from churches to work alongside staff at family centres to support the delivery of services that build resilience in children and families
5. campaigns, harnessing the church network, on priority issues for children and families, for example oral health
6. assisting churches in developing new services supporting families e.g. using school readiness resources in parent and toddler groups.

1. Highlight the contribution to society by faith-based organisations
2. Faith groups as providers and advocates for the communities in which they serve
3. The Faith Covenant can be adopted by faith groups and local authorities across the UK
4. A joint commitment between faith communities and local authorities to a set of principles that guide engagement and practical working on all levels.
